From: Director, National Human Resources Management Center

Subject: Mission to the S.T.A.R.S: Leadership for Critical Times

This unique seminar is the result of a recent collaboration with the Space and Rocket Center and the Army Acquisition Corps, and is now being made available for the first time on an interagency basis. Mission to the S.T.A.R.S. is a dynamic 2-day seminar that challenges participants to plan and execute a simulated rescue of a "scientific task force of Americans residing in space" (STARS). The simulation will require participants to work together in teams to change behaviors and processes.

The program is open to managers and teams who are in leadership roles. Usually GS 12-15 attend; however, intact teams representing various GS grade levels are appropriate. This program will be conducted at the Space and Rocket Center in Huntsville, Alabama, in two sessions: September 10-11 and September 12-13, 2001.

Cost for each two day session is \$1,825. Tuition includes 3 nights lodging, all meals, and program materials. There will be a 10% discount for teams of four or more.

For detailed information visit: <http://www.leadership.opm.gov/stars>

All nominations should be submitted by training coordinators to Marilyn Ladd (HR-220) ASAP. There are only 32 spaces for each 2-day program.
